DBN targets US$750m in climate finance by 2029. The Development Bank of Namibia (DBN) is seeking to mobilise US$750 million in climate finance between 2027 and 2029 through partnerships with development finance institutions and private-sector investors. The bank unveiled the investment and partnership strategy at the 31st Conference of the Parties (COP31), positioning itself as an investment-origination and capital-mobilisation platform to help address Namibia's climate financing needs. According to DBN's COP31 investor briefing, Namibia faces climate investment requirements of US$14.07 billion, with 88% of the funding conditional on international support. The broader national climate finance funding gap is estimated at US$250 billion. DBN is seeking US$340 million in co-financing from development finance institutions and private investors to support the mobilisation target. — Windhoek Observer.

Bannerman plans further Etango exploration. Bannerman Energy plans further exploration at depth and across regional satellite targets, including Hyena, Onjamba, and Ompo. The exploration programme forms part of the company's broader development plans for its Etango Uranium Project in the Erongo Region, where full-scale construction is under way ahead of targeted first production in 2028. Bannerman has also identified two potential expansion options beyond the initial development. The Etango-16 expansion concept would double processing capacity to 16 million tonnes annually, increasing average production to 6.7 million pounds of U_3O_8 a year after the fifth year of operation. The option carries an estimated incremental growth capital cost of US$367 million. The second option, Etango-XT, would extend the mine life to 27 years at an annual processing capacity of eight million tonnes, with forecast total production of 95.2 million pounds of U_3O_8. The November investor presentation was delivered by managing director and chief Executive Gavin Chamberlain at Canaccord Genuity's Australia Mining Conference in Noosa, Queensland. According to Bannerman, approximately 523 contractor personnel are currently working at the Etango site, located about 30 kilometres south-east of Swakopmund. — Windhoek Observer.

MTN in talks to acquire Telkom. Telecommunications giant MTN Group has opened early-stage discussions to acquire the entire issued share capital of Telkom SA SOC Limited in a cash-and-share deal. This marks yet another time that the two telecommunications companies are in talks regarding a potential merger and an MTN buyout of Telkom. In simultaneous cautionary announcements, published on 16 November 2026, both JSE-listed companies confirmed that negotiations began following a formal approach by MTN. Under the proposed structure, Telkom shareholders would receive cash for their holdings, with an alternative option to accept MTN shares. However, both boards noted that the specific deal terms and form of payment remain under negotiation. – Moneyweb

Vitol to upgrade and run pipeline fuelling African Copperbelt. Vitol Group won a bid to upgrade and operate a key pipeline that delivers diesel to **Zambia's** Copperbelt region, consolidating the company's growing presence in southern and eastern Africa. Tazama Pipelines Ltd. appointed Vitol Bahrain as project developer, the company said on its website. The work includes upgrading the existing 1,710-kilometer (1,062 mile) pipeline from Dar es Salaam, Tanzania, to Ndola, Zambia, which currently has throughput of 800,000 metric tons per year. The award deepens Vitol's role in a strategically important fuel corridor for landlocked Zambia, where the Tazama pipeline supplies most of the country's diesel. It also comes as Zambia faces pressure from the International Monetary Fund to restore transparent and competitive access to the line, after Vitol was its sole supplier for much of this year.
