FOREWORD

The tourism sector is geared towards its recovery with significant and continued increase in the number of international tourist arrivals in the country in the last two years. The Government's and private sector efforts are gradually bearing positive results as the international travelers confidence in the destination improves.

In 2022, the country opened up all of its points of entry to international visitors. This move has allowed ease of access to the country that is resulting in an increased inbound foreign and tourist arrivals alike.

I am delighted to note and report a record of 98.1% increase in international / inbound tourist arrivals from 232,756 (2021) to 461,027 in 2022. This figure indicates a 28.9% recovery level towards the 2019 tourist arrival statistics. To note, UNWTO reports that the global international arrivals increased by 102% in 2022 over 2021 but remained 37% below 2019 figures.

Now that the recovery in sector is gaining momentum, the Ministry urges destination managers, tour operators and all relevant stakeholders to develop new products, routes, and added destinations to increase the value to the visitor, enhance guest experience, but equally make the "*Destination Namibia*" again appealing to repeat visitors.

Top ten tourist markets in 2022 are South Africa, Angola, Germany, Zambia, Botswana, France, UK, United States, Italy, Switzerland. Season of travel, 53.1% travelled between September to December, 36.1% between May to August and 10.8% travelled between January to April.

Namibia's tourism sector stands a chance to equally benefit from opportunities within the domestic and Africa regional tourism source markets. It is therefore imperative to increase marketing spending aimed to increase demand in the domestic and regional tourism markets to achieve a sustainable tourism recovery and growth in the near future.

Hon. Pohamba P. Shifeta (MP),
Minister of Environment, Forestry and Tourism

PREFACE

This Annual Tourist Statistical Report 2022 contains international tourists arrival statistics into Namibia for the year 2022. The data was obtained from the arrival/departure forms completed by all travelers at points of entry in the country.

These statistics are prepared for use by all our stakeholders and it is my hope that the information contained herein will be used to conduct proper planning for the growth and development of the tourism sector at large.

International tourist arrivals in 2022 were 461,027, which presents a remarkable increase of 98.1% from 232,756 in 2021. This increase is a good indicator that the tourism industry is indeed on its way to recovery after an enormous decline experienced in the past two years due to COVID-19 outbreak. I encourage the tourism industry in the country to not only target international travelers, but also focus on growing the domestic and regional markets to reduce dependency on the international tourist source markets.

The Ministry encourages users to visit the official ministerial website www.meft.gov.na to access similar reports from previous years as well as other equally important documents.

ACKNOWLEDGEMENTS

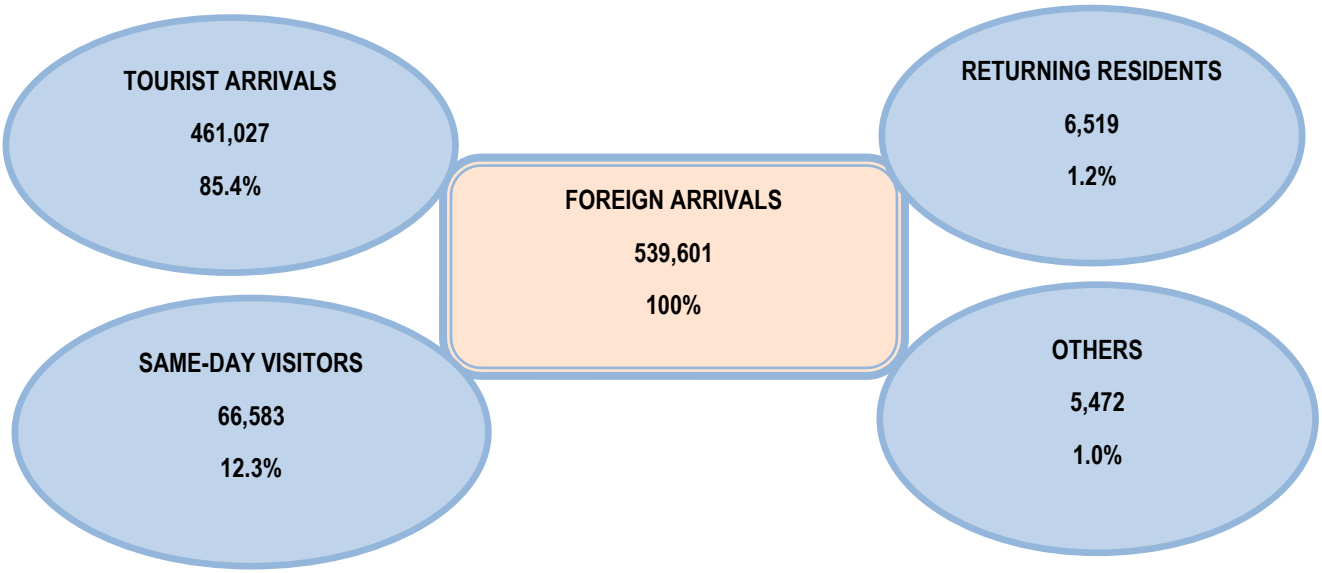

The Ministry of Environment, Forestry, and Tourism (the Ministry) expresses gratitude to the Ministry of Home Affairs, Immigration, Safety, and Security (MHAISS) for its collaboration in collecting foreign arrivals data by our team, which output contributed to the development of this Annual Tourist Statistical Report of 2022. Additionally, the Ministry acknowledges and appreciates the efforts of the Namibia Tourism Board, Namibia Investment Promotion and Development Board and all private sector players and relevant marketing agencies for promoting and positioning Namibia as the most preferred tourism and business destination in sub-Saharan Africa.

The Ministry extends further its profound gratitude to all tourism stakeholders for their invaluable contribution and good collaboration with the Ministry for the development and growth of the tourism sector. The Ministry recognizes and appreciates the stakeholders' love for the country, hard work, for creating unforgettable vacation experiences for our visitors and their commitment in showcasing Namibia's natural beauty and attractiveness whilst preserving its cultural heritage and natural environment upon which the "tourism product" depends on.

INTRODUCTION

Objectives

The Annual Tourist Arrival Statistical Report depicts the inflow of tourists in Namibia per annum.

The main objective of this report is to provide up to date statistics to all tourism stakeholders. These statistics are relevant for planning, budgeting and evaluation of tourism programmes, investment decisions and projects as well as for general economic purposes. The key users of tourism statistics include the Government of the Republic of Namibia (GRN), the Namibia Tourism Board (NTB), Namibia Statistics Agency (NSA), Bank of Namibia (BoN), National Planning Commission (NPC), Federation of Namibia Tourism Associations (FENATA), research institutions, NGOs, donors, Universities and the general public.

Report sections

The first section of this report contains comprehensive statistics presented in graphic formats that include foreign arrivals profile; tourist arrivals profile; tourists arrivals by region, purpose of visit, intended length of stay, gender, age group, point of entry, mode of travel and seasonality of travel.

The second part is an Annexure containing detailed statistical tables covering information on tourist profiles as specified in the first section. The percentage row distribution tables show row values in percent as distributed across the categories of the indicated variables in the columns. On the other hand, the percentage column distribution tables show column values in percent as distributed across the categories of the indicated variables in the rows.

Key Concepts and Definitions

Foreign Tourist

A foreign/international tourist is defined as "any visitor travelling to a country other than that of his/ her residence but outside his/her usual environment for more than 1 night but less than 12 months and whose main purpose of visit is other than the exercise of an activity remunerated from within the place visited". This is the United Nations World Tourism Organisation (UNWTO) definition used to identify who is a foreign tourist visiting Namibia.

Country of Residence

The country of residence is one of the key criteria for determining whether a person arriving in a country is a "*visitor"* or "*other traveller",* and if a *"visitor"* whether he/she is a national or overseas resident. The underlying concept in the classification of international visitors by place of origin is the country of residence, not their nationality. Foreign nationals residing in a country are assimilated with *"other resident"* for the purpose of domestic and outbound tourism statistics. In this report, however, they fall under *"Returning Residents"* category of foreign arrivals.

Purpose of Visit

The main purpose of a tourism trip to a country (or place) is defined as "*the purpose in the absence of which the trip would not have taken place*". It is determined by the main activities in which the visitors has been or will be involved during the trip at destination. The main purpose of visit for tourists are classified into four categories, which are: Visiting Friends/Relatives, Holiday, Business, and Other (those reason that did not fall under the other three categories).

"**Other purposes**" category of Tourist Arrivals is made up of In-transit travellers, etc.
"Scandinavia" is made up of Denmark, Norway, Finland and Sweden countries

NB: The above definitions and classifications were applied in this study and, being internationally accepted, and allow for global comparison of the Namibian tourism statistics.

Final Report

FOREIGN ARRIVALS PROFILE

The number of foreign arrivals to Namibia grow by 99.4% in 2022, recording 539,601 in total foreign arrivals as compared to 270,644 in 2021. Out of the foreign arrivals to the country, tourist arrivals constituted a 85.4% share of the total foreign arrivals which demonstrates the appeal and attractiveness of Namibia as a tourist destination while excursionists provided a 12.3% share of the total foreign arrivals which shows that people are interested in exploring the country's unique destination offerings. On the other hand, returning residents and Other foreign travelers contributed 1.2% and 1.0% to the total foreign arrivals, respectively.

Figure 1: Trend of Foreign Arrivals from 2012 to 2022

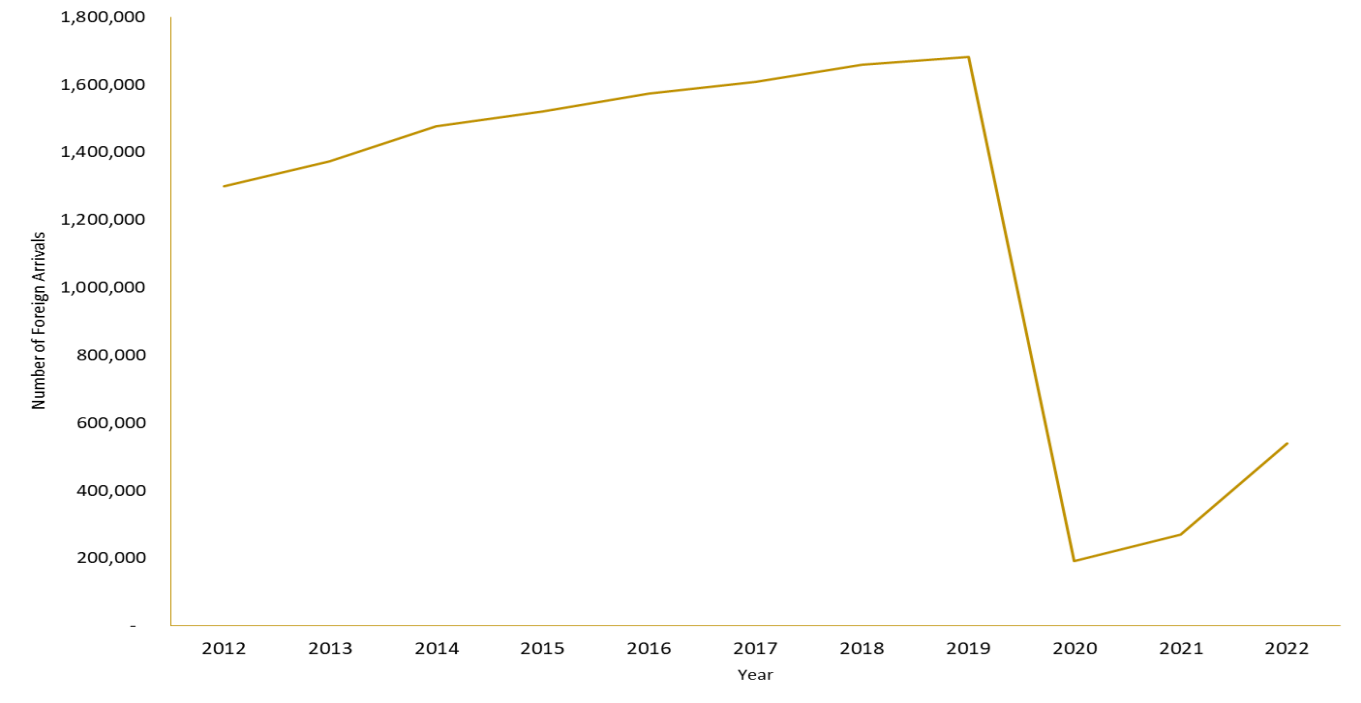

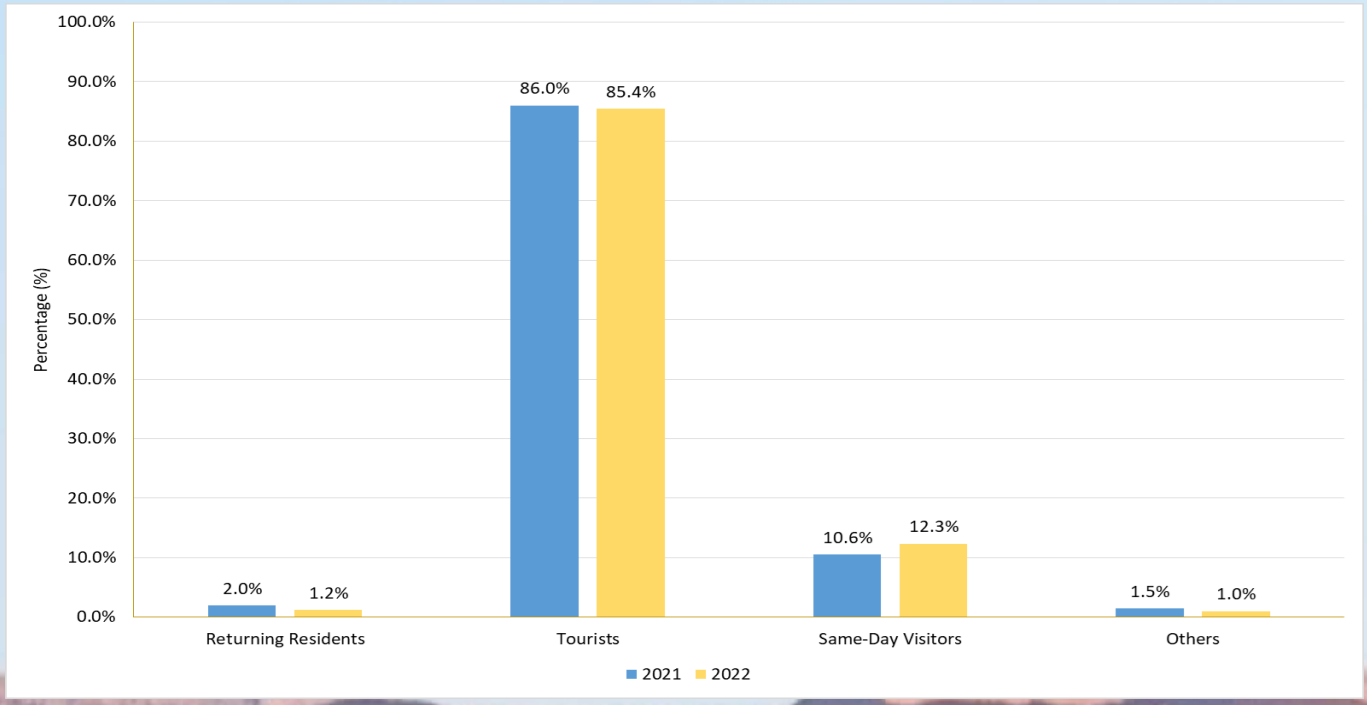

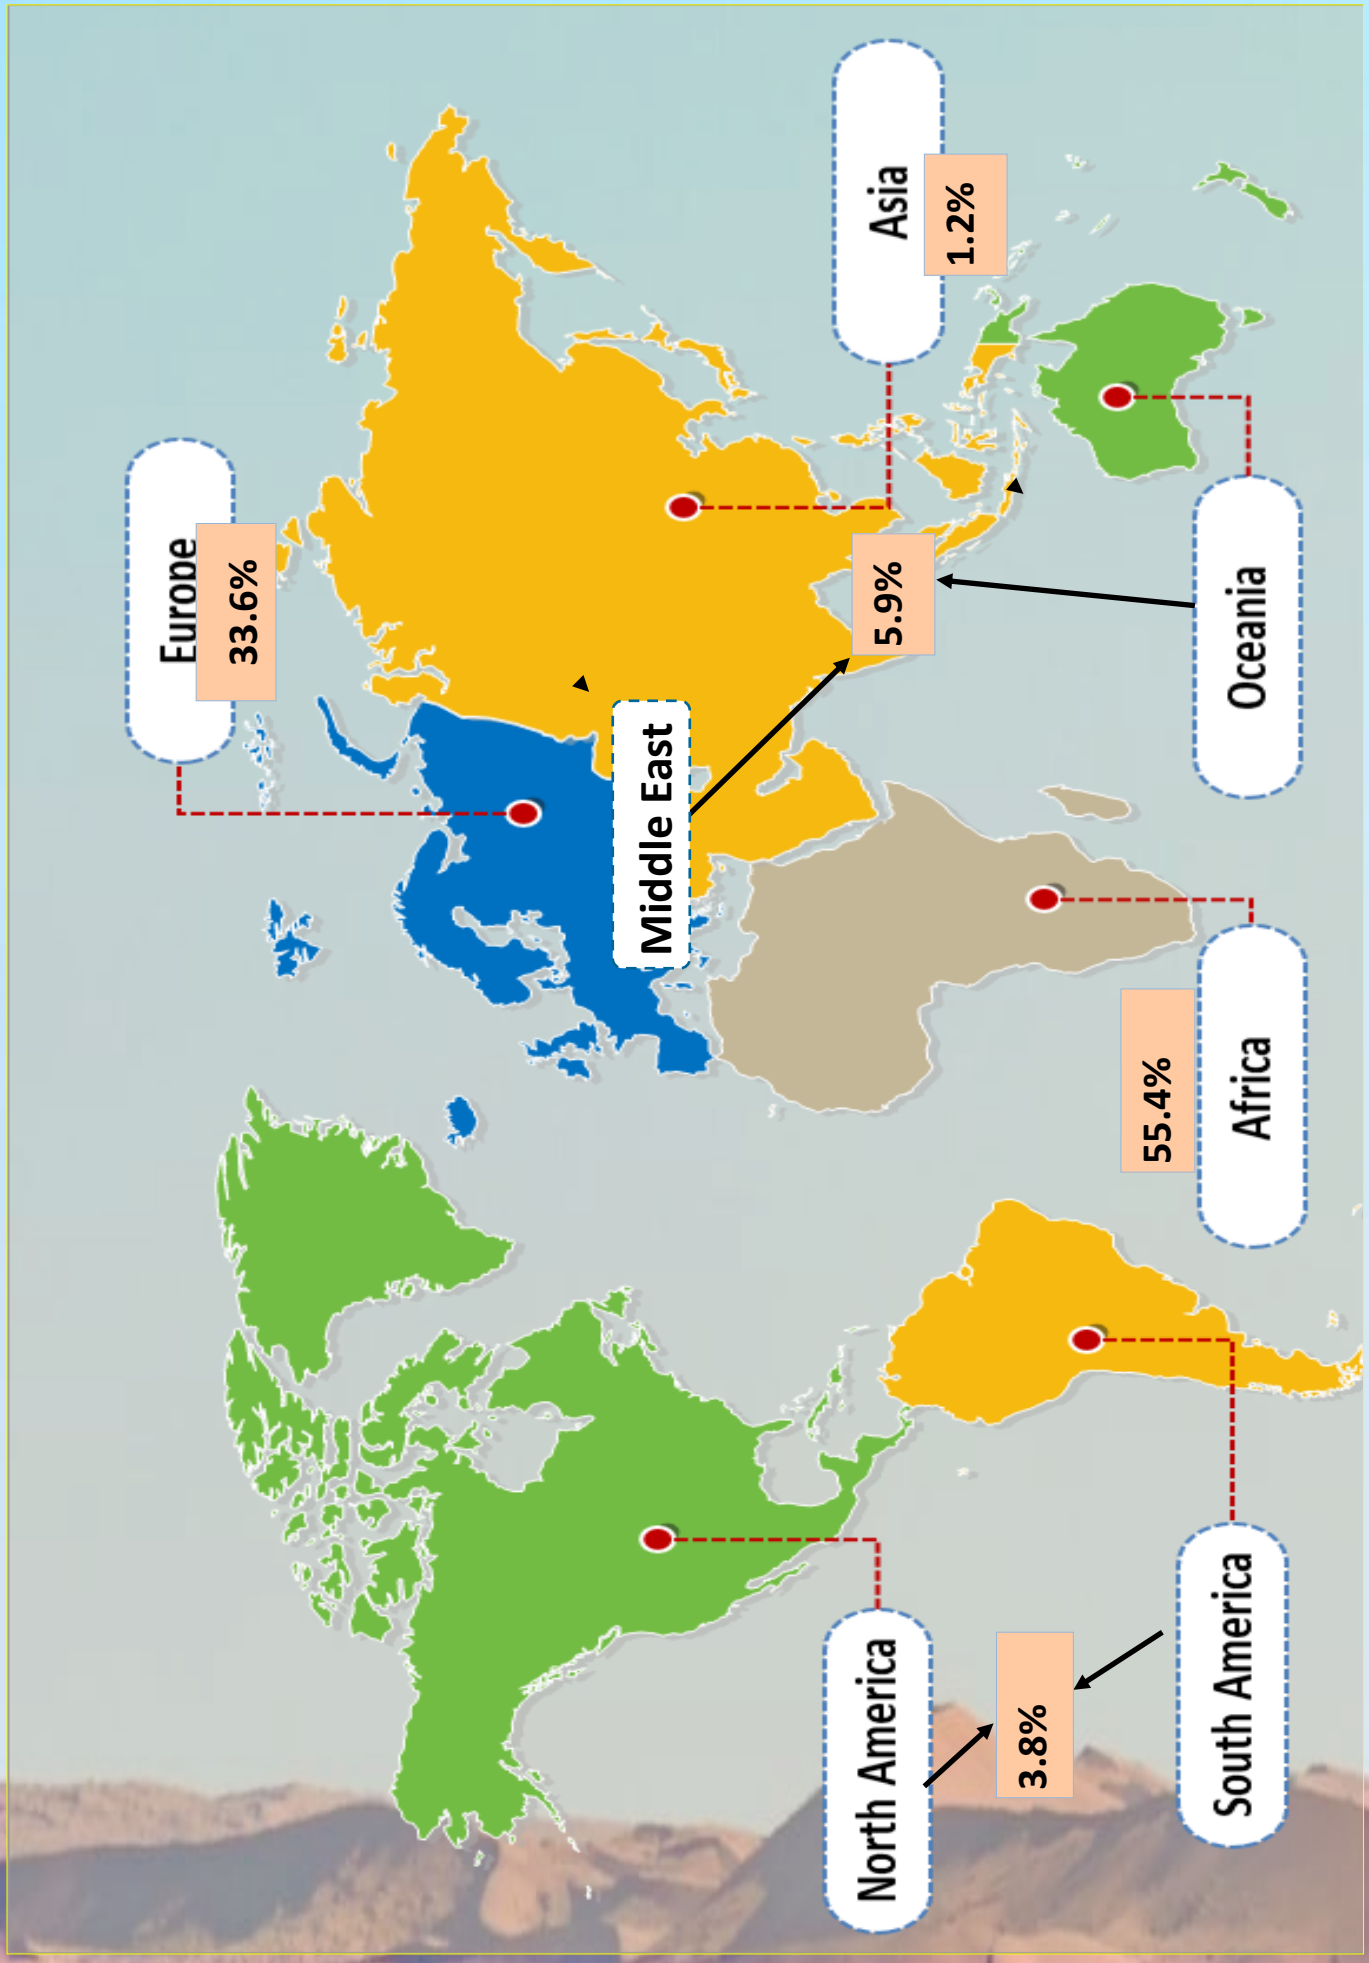

Figure 2: Comparison of Percentage Distribution for Foreign Arrivals by Category of Travel, 2021-2022

WHO VISITED NAMIBIA IN 2022

INTERNATIONAL TOURIST ARRIVALS' PROFILE

As the tourism sector continues to recover globally from the COVID-19 pandemic, tourist arrivals to Namibia is also following the curve pattern indicating a 98.1% increase in arrivals from the total international tourist arrivals in 2021.

In total, 461,027 international tourist arrivals visited Namibia in 2022. This suggests that more people are regaining confidence in traveling and exploring new places after they were contained in their immediate surroundings due to the travel restrictions in the last two years, and Namibia as a destination is clearly benefiting from this trend. This recovery is a good indicator that the country can expect an increased economic performance from the tourism sector and its contribution to the national Gross Domestic Product in 2022 and going forward, all factors being equal.

Figure 3: International Tourist Arrivals from 2012 to 2022

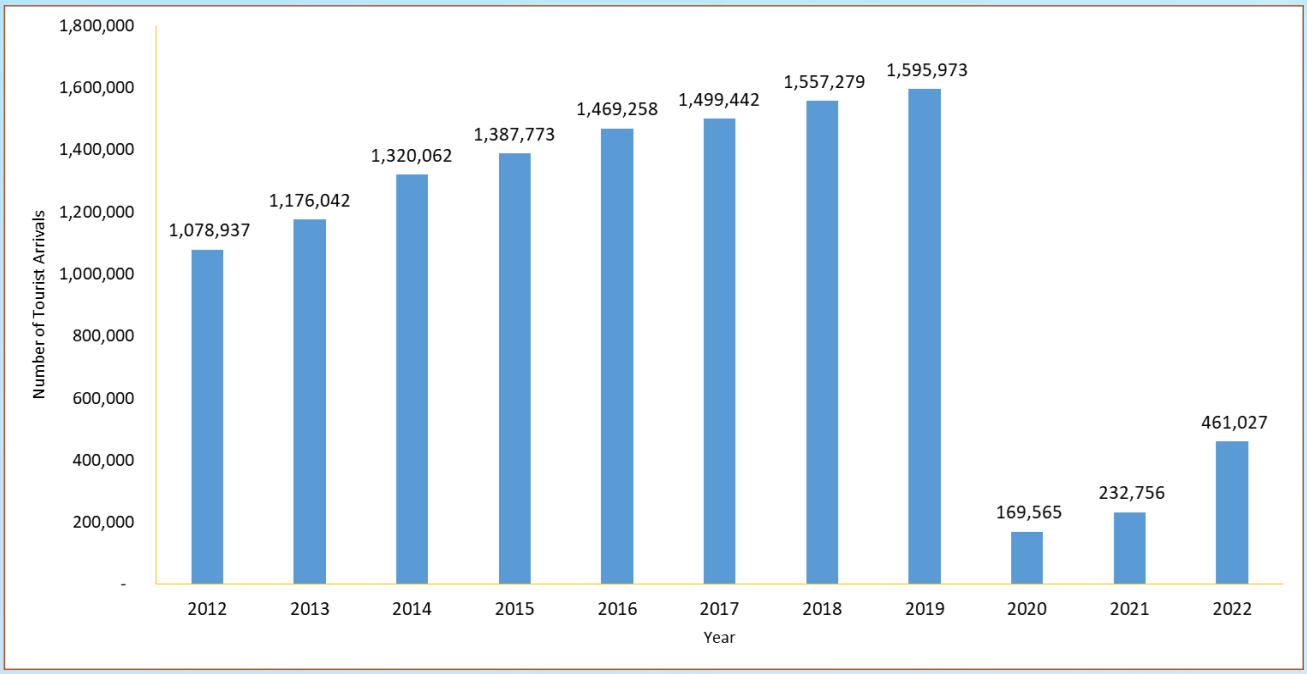

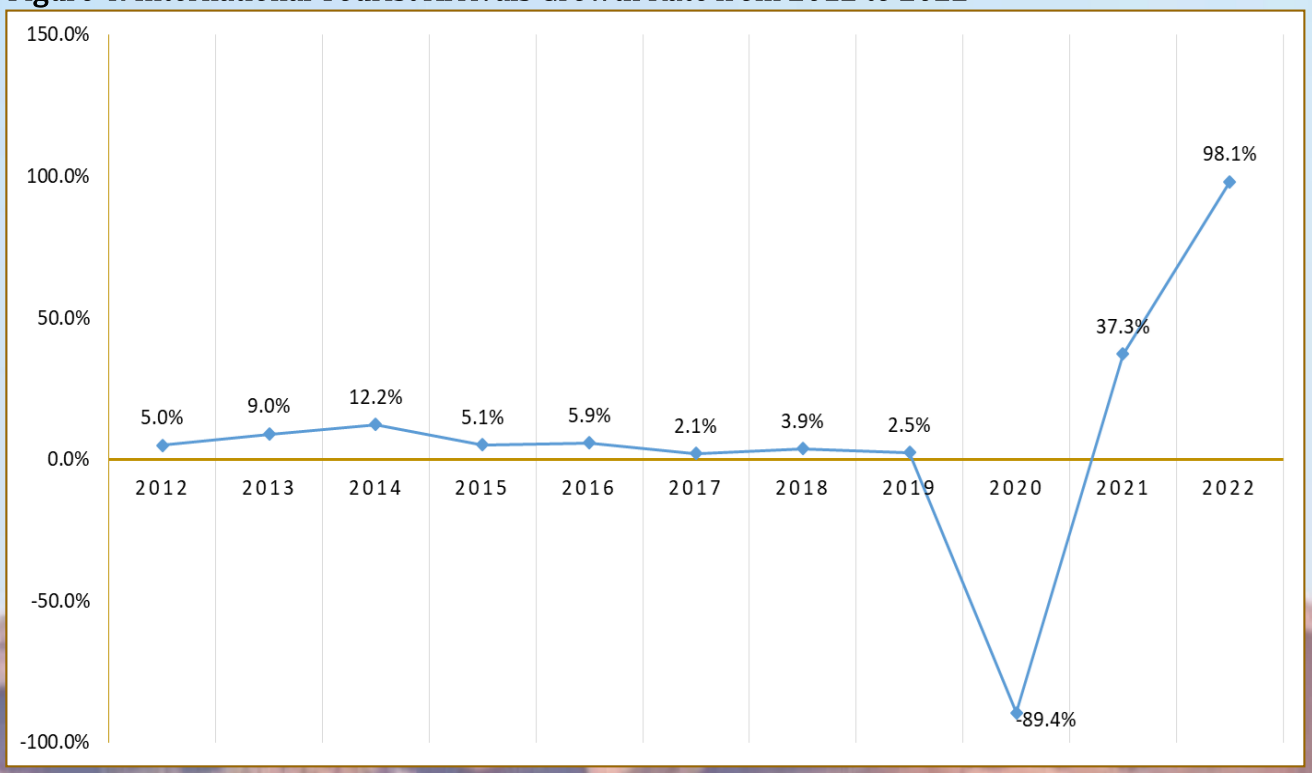

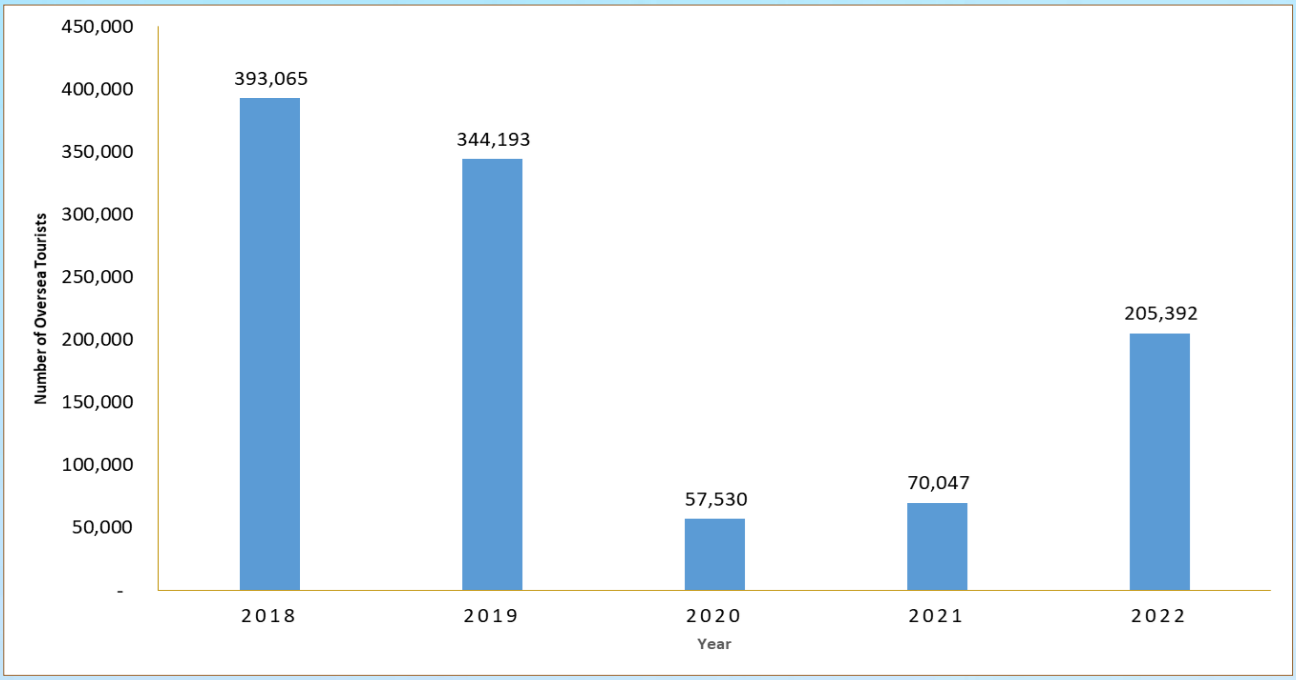

Figure 4: International Tourist Arrivals Growth Rate from 2012 to 2022

RECOVERY OF THE OVERSEAS SOURCE MARKETS

Overseas tourist arrivals grew by 65.9% in 2022 in comparison to 2021 (70,047) which indicates that Namibia's tourism sector continue to attract visitors from various parts of the world. Overseas arrivals made up 44.6% of total tourist arrivals in 2022.

Figure 5: Overseas Tourist Arrivals from 2018 to 2022

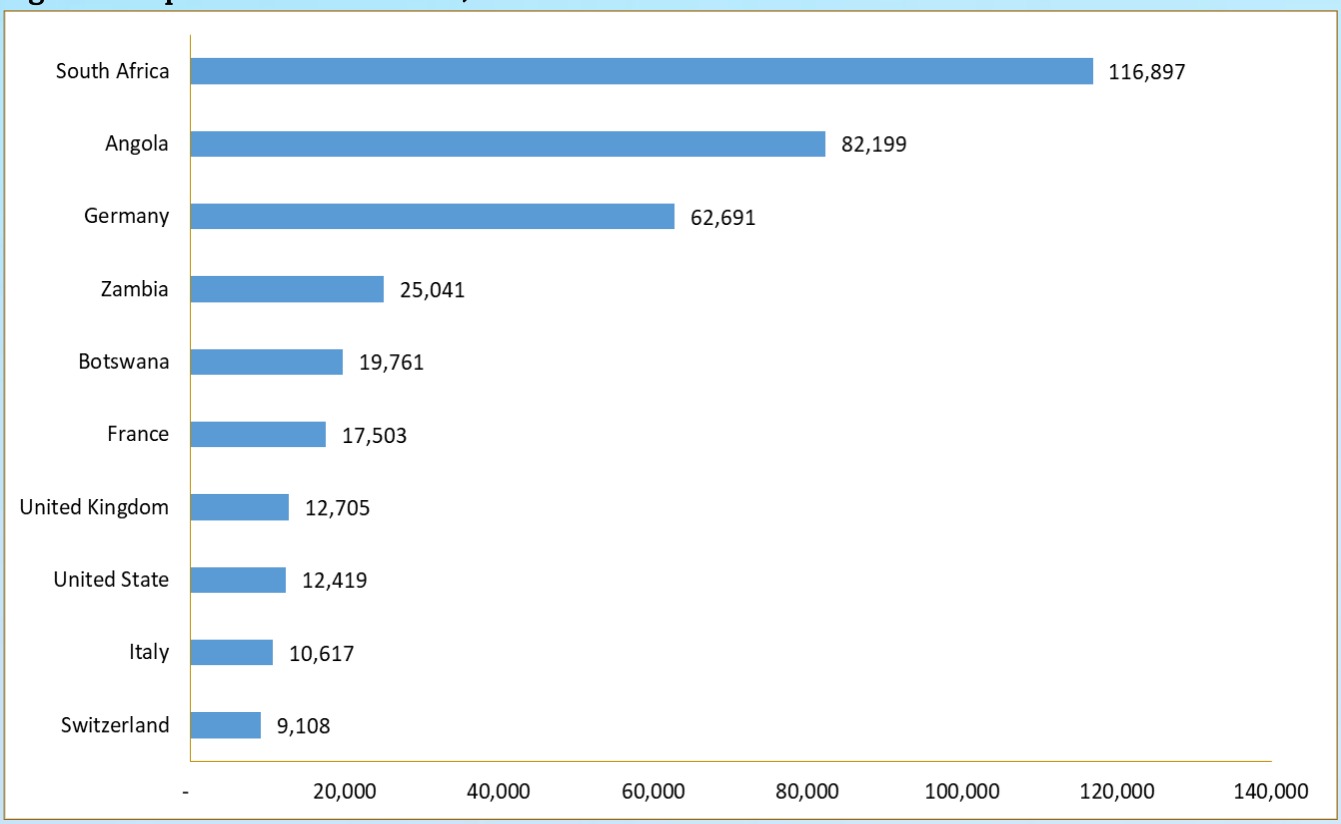

TOP TEN TOURIST MARKETS

As for the African regional market, South Africa, Angola and Zambia took the top three spots of the highest African source market contributors to tourist arrivals with a share of 25.4%, 17.8% and 5.4% respectively. As for the Overseas market, Germany, France and United Kingdom were the top three contributors to tourist arrivals with a share of 13.6%, 3.8% and 2.8% respectively.

It is worth to note that the top ten tourist markets accounts for 80% of total tourist arrivals in 2022 tourism season.

Figure 6: Top Ten Tourist Markets, 2022

TOURIST ARRIVALS BY REGION

All global regional markets observed growth from the previous year(2021). The African market grew by 57.0% which demonstrates the appeal of Destination Namibia to neighboring countries and the Africa region as a whole. In addition, the European, Americas, Asian and other markets more than doubled their contribution to the total tourist arrivals in the Country in 2022 as compared to 2021 arrivals.

The growth indicates an increasing demand for Namibia's eco-tourism, natural appeal for wildlife viewing, scenic excursions, variety of cuisines, world heritage sites, culture and warm hospitality of the people.

TOURIST ARRIVALS BY PURPOSE OF VISIT

A majority of 48.6% of the total tourist arrivals (461,027) visited the country for holiday purposes. This in itself indicates that the country's tourism product still remains attractive for vacation and holiday purposes. Tourists who came to visit friends and relatives are 31.4% of total tourist arrivals. This again shows the importance of personal connections in the tourism sector and through them visitors still enjoy their earned vacations in the country. On the other hand, 15.2% of the total arrivals came for business purposes. The latter, indicates that the country offers opportunities for business tourism (MICE), business networking, conferences, and conducting business meetings. The remaining 4.8% came for other purposes which highlights the flexibility and appeal of Namibia as a destination for many reasons.

TOP TEN OVERSEAS TOURIST BY PURPOSE OF VISIT

Figure 12 b): Top Ten Overseas Holiday Tourist Markets, 2022

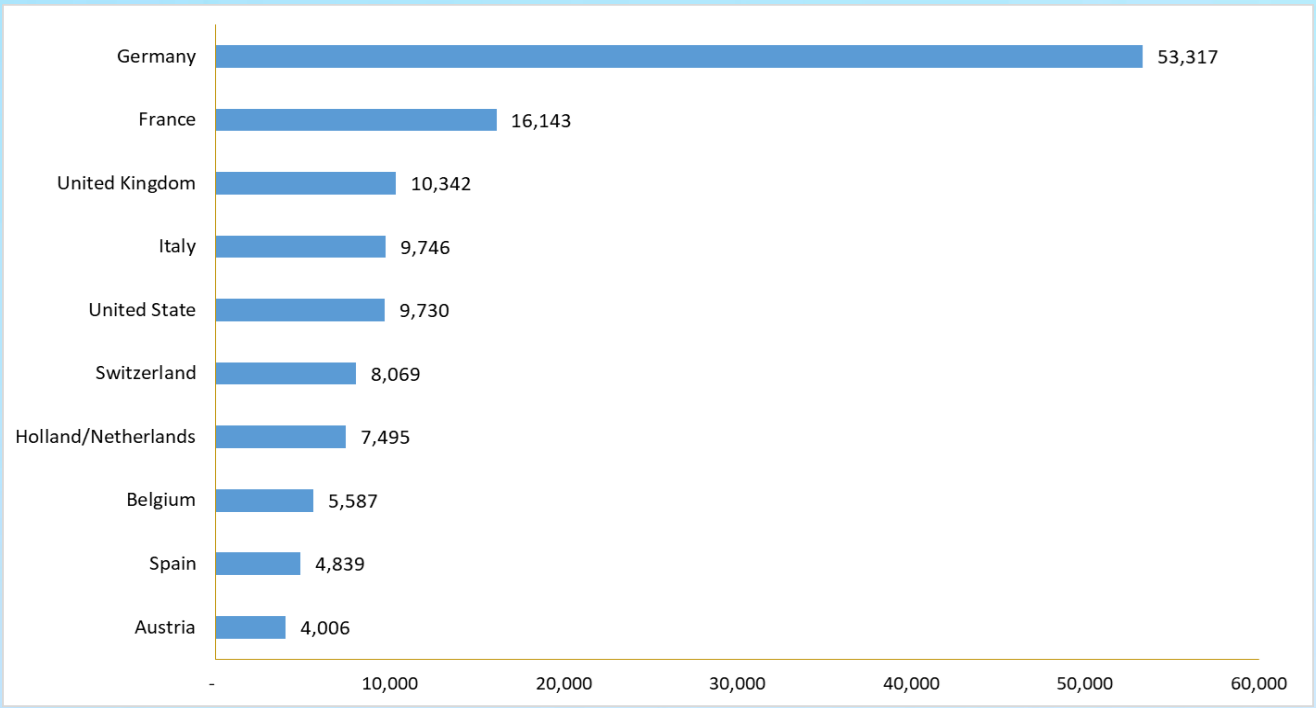

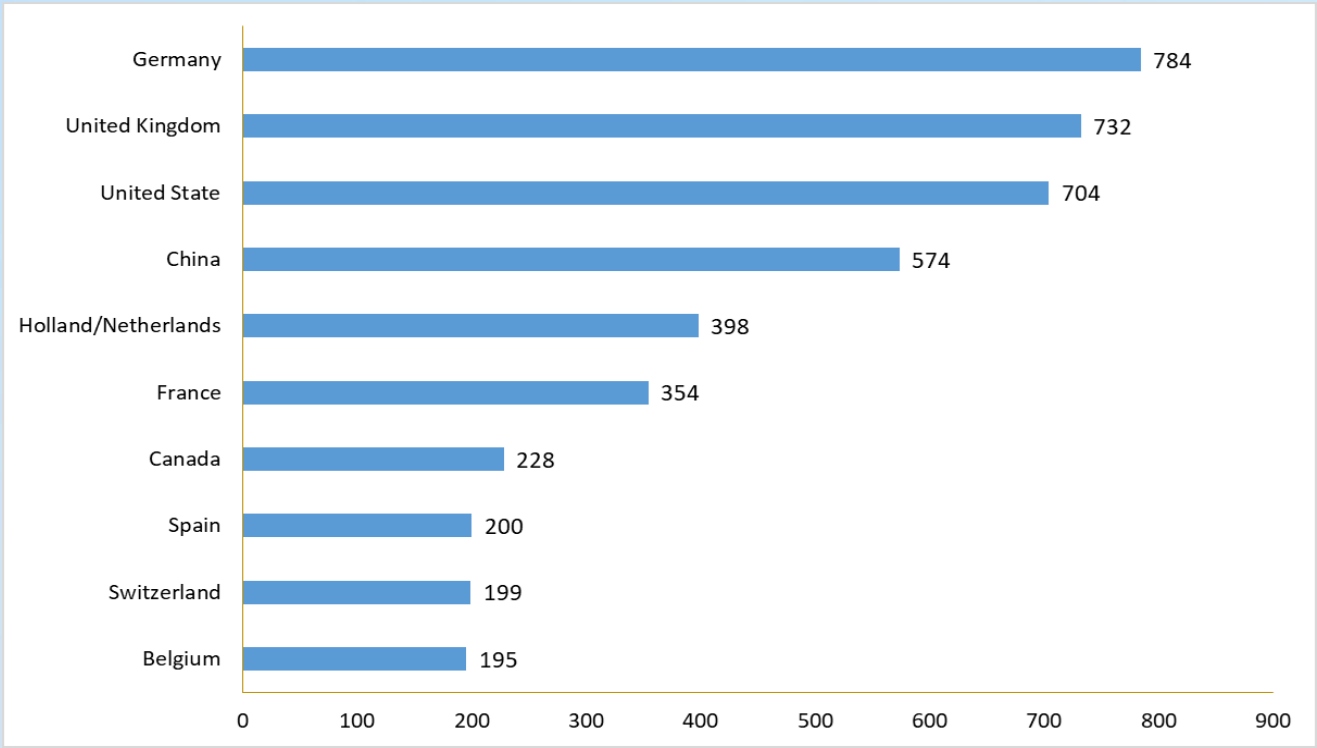

Figure 12 c): Top Ten Overseas Business Tourist Markets, 2022

INTENDED LENGTH OF STAY

The annual average intended length of stay for all tourists in Namibia in 2022 was 16 nights, which is less than the 24 nights average length of stay for tourists in 2021. A high percentage of tourists (29.0%) intended to stay for an average of 8-14 nights, followed by 23.9% of tourists who intended to stay for an average of 4-7 nights. This indicates that many visitors were eager to spend a considerable amount of time exploring and immersing themselves in Namibia's tourism product offering.

Figure 13 a) : Average Night Spent by Tourists, 2018 – 2022

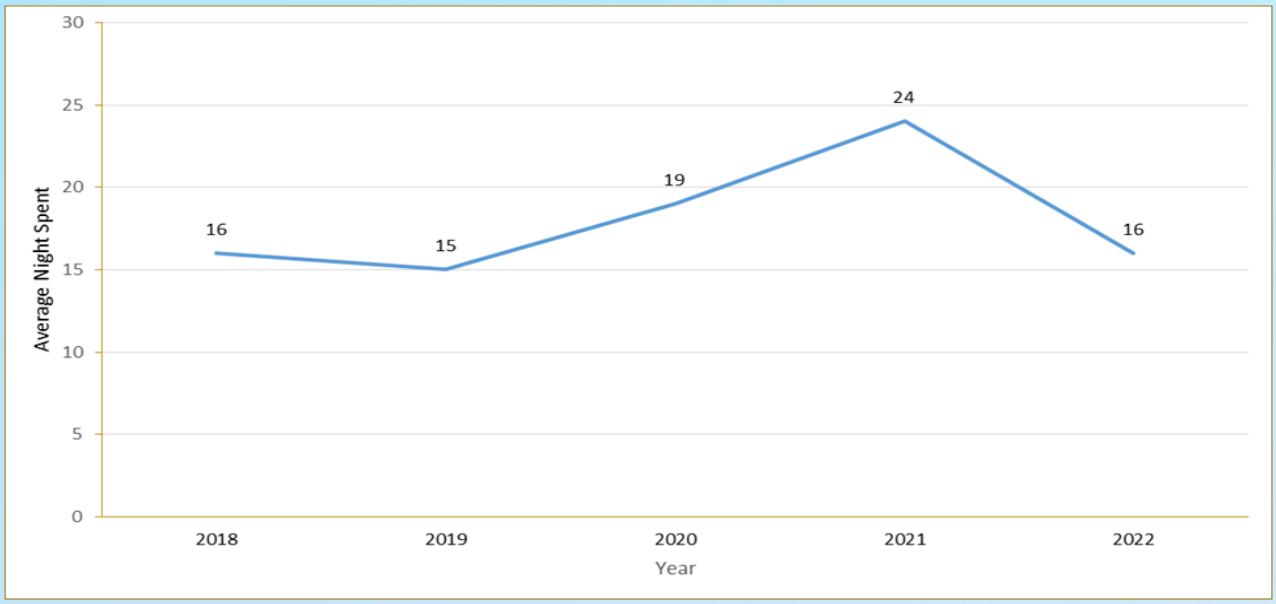

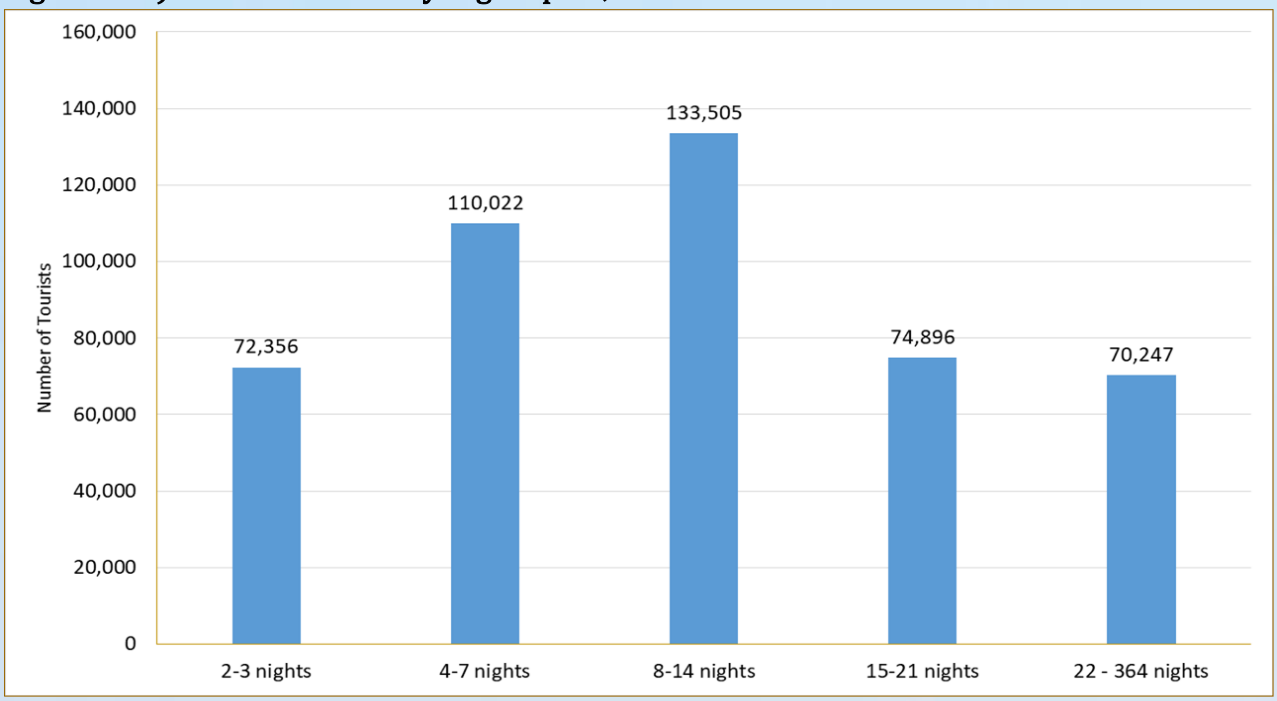

Figure 13 b): Tourist Arrivals by Night Spent, 2022

TOURISTS' GENDER PROFILE

Namibia received more male tourists at 59.2% of overall tourist arrivals and 40.8% females in 2022 . The above trend has been the case ever since.

It is further noticeable that international tourist arrivals from the Asian regional market were split as follows, 68.5% males and 31.5% females. This indicates a specific demographic preference for males to explore Namibia.

Figure 14 a): Proportion of Tourists Gender Distribution, 2022

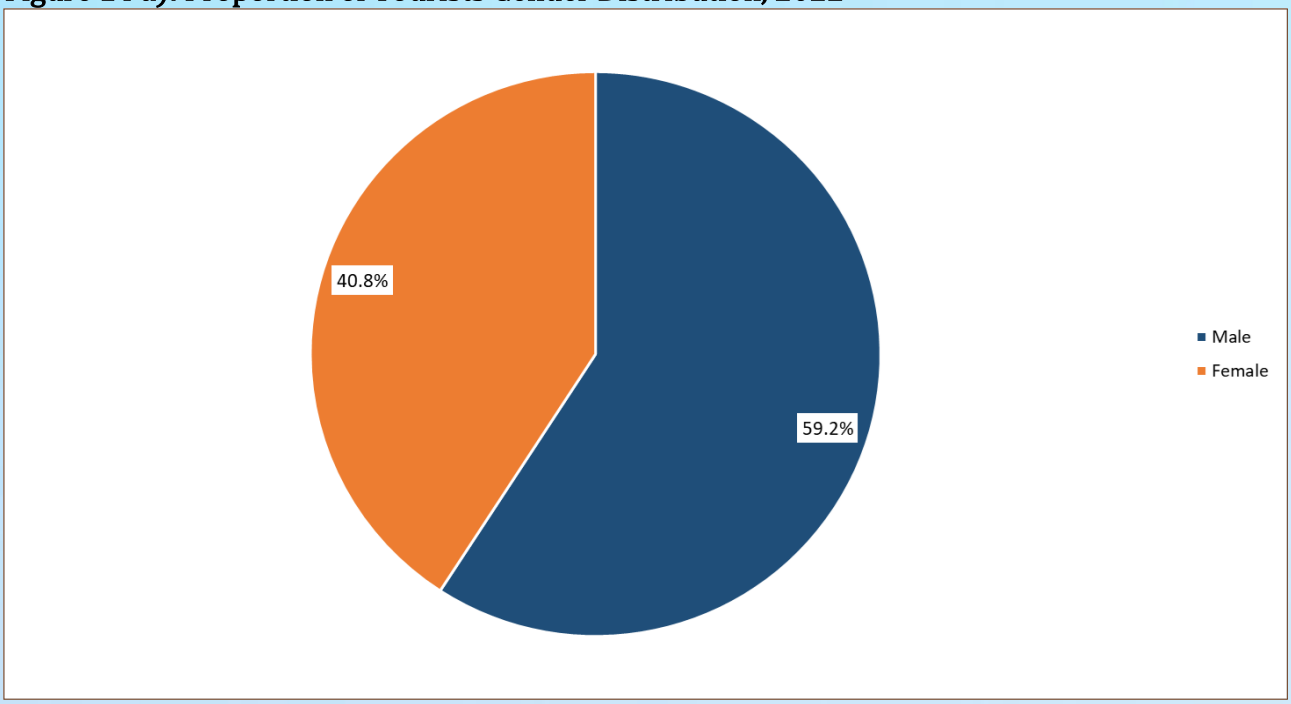

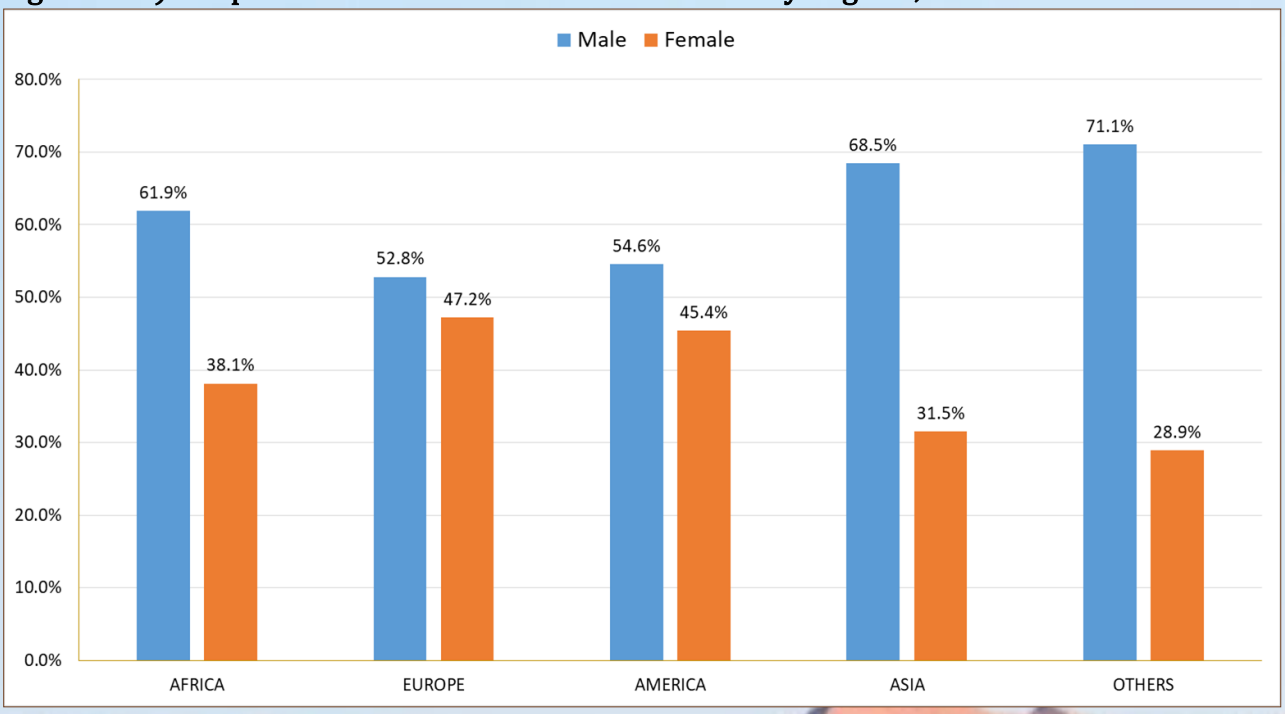

Figure 14 b): Proportion of Tourists Gender Distribution by Regions, 2022

TOURISTS AGE PROFILE

Most tourists who visited the country during the reporting period were aged between 30-39 years, a representation of 22.2% of total arrivals. This suggests that individuals in this age group find Namibia more appealing, possibly due to its diverse range of tourism activities, adventure excursions, and other attractions that cater for various individual, family and group interests. On the other hand, tourists between 40-49 years old represented 20.2%, age group 50-59 representing 18.3%, followed by age group 60+ at 18.1%, whilst those between 20-29 and 0 -19 years age group were 13.3% and 7.9% of total tourist arrivals respectively.

Figure 15 a): Comparison of Tourist Age Group, 2021-2022

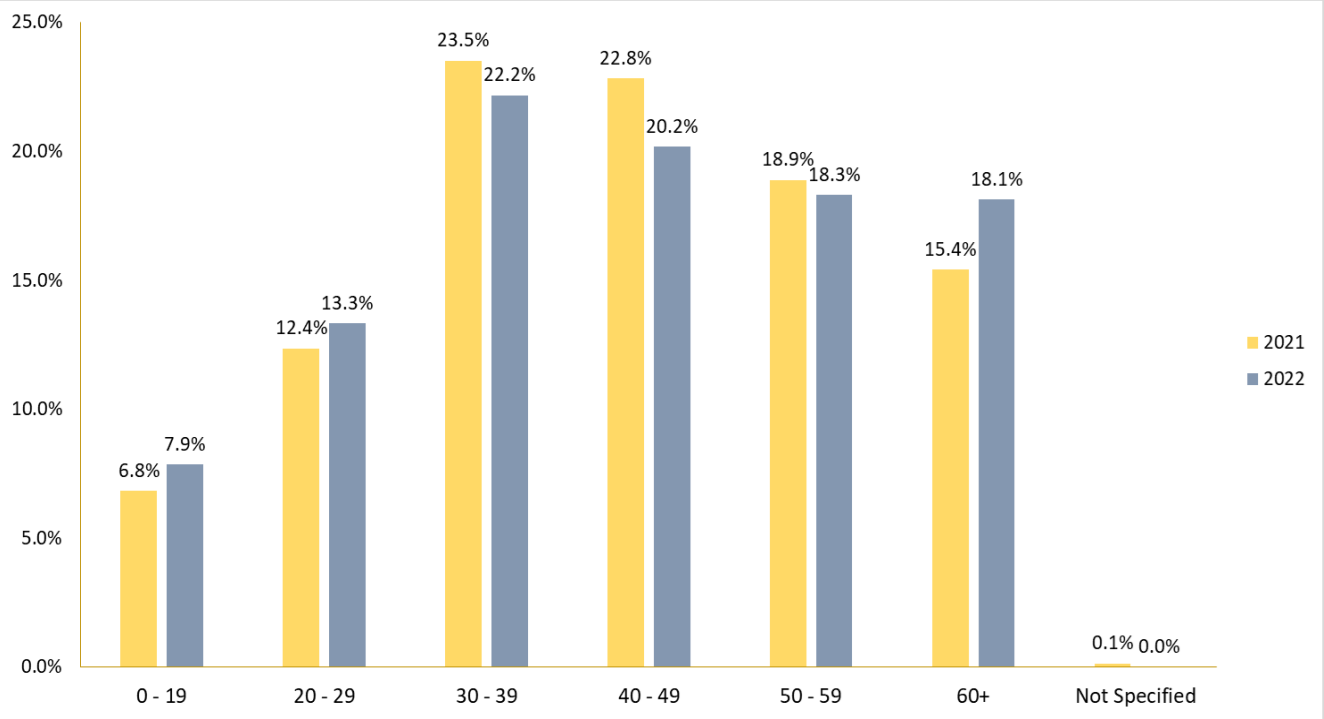

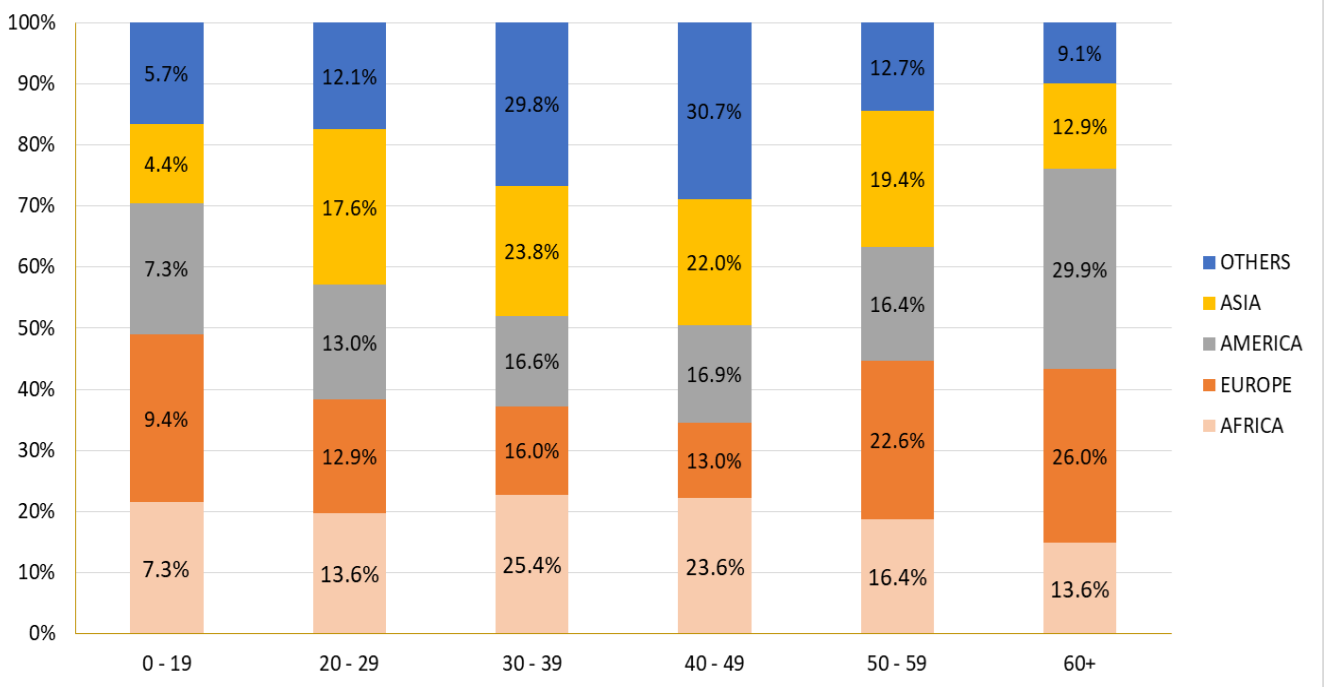

Figure 15 b): Tourist Age Group by Regions, 2022

TOURIST POINTS OF ENTRY

Hosea Kutako International Airport remains the primary point of entry for air travelers, with tourists arriving through this airport reached 44.1% of the total tourist arrivals in 2022. This suggests that this airport serves as a major gateway for international visitors. In addition, the north-eastern and southern border posts also play a significant role as entry and exit point for tourists, with 23.0% and 22.3% of total arrivals respectively. These border posts connect Namibia with neighboring countries, making it convenient for travelers to explore the country by land. A relatively low number of tourist arrivals was observed at Walvis Bay and Lüderitz harbors, with less than 0.01% of arrivals. This could be due to various factors, such as the limited number of cruise ships docking at these ports or alternatively tourists prefer other modes of transportation.

Table 1: Comparison of Tourist Arrivals by Points of Entry, 2021-2022

POINT OF ENTRY	2021	2022	CHANGE
Hosea Kutako Airport	37.7%	44.1%	↑
Eros Airport	0.2%	0.1%	↓
Walvis Bay Airport	4.3%	2.2%	↓
Northern Border Posts	13.4%	8.2%	↓
North Eastern Border Posts	34.2%	23.0%	↓
Southern Border Posts	10.0%	22.3%	↑
Harbours (Walvis Bay and Luderietz)	0.2%	0.0%	↓

TOURISTS MODE OF TRAVEL

Tourists who arrived by road (through land borders) accounted for 53.5% of the total tourists arrivals. This indicates that a significant portion of visitors choose to journey to Namibia by land or road, possibly taking advantage of the country's best road network systems and quality of roads, the proximity to neighboring countries like South Africa, Botswana and Zambia ,but equally an opportunity to the visitors to explore the Southern African region by road trips, overland adventures, Camping expeditions. Those who arrived by air (airports) accounted for 46.5% of total tourist arrivals mainly those who reside far away from Namibia, allowing them to reach their destination for holiday (Namibia) efficiently by air. Tourist arrivals from the African markets constituted 77.7% of all arrivals by road while 84.2% of the European travelers came by air.

Figure 16 a): Comparison of Tourist Arrivals by Mode of Travel, 2021-2022

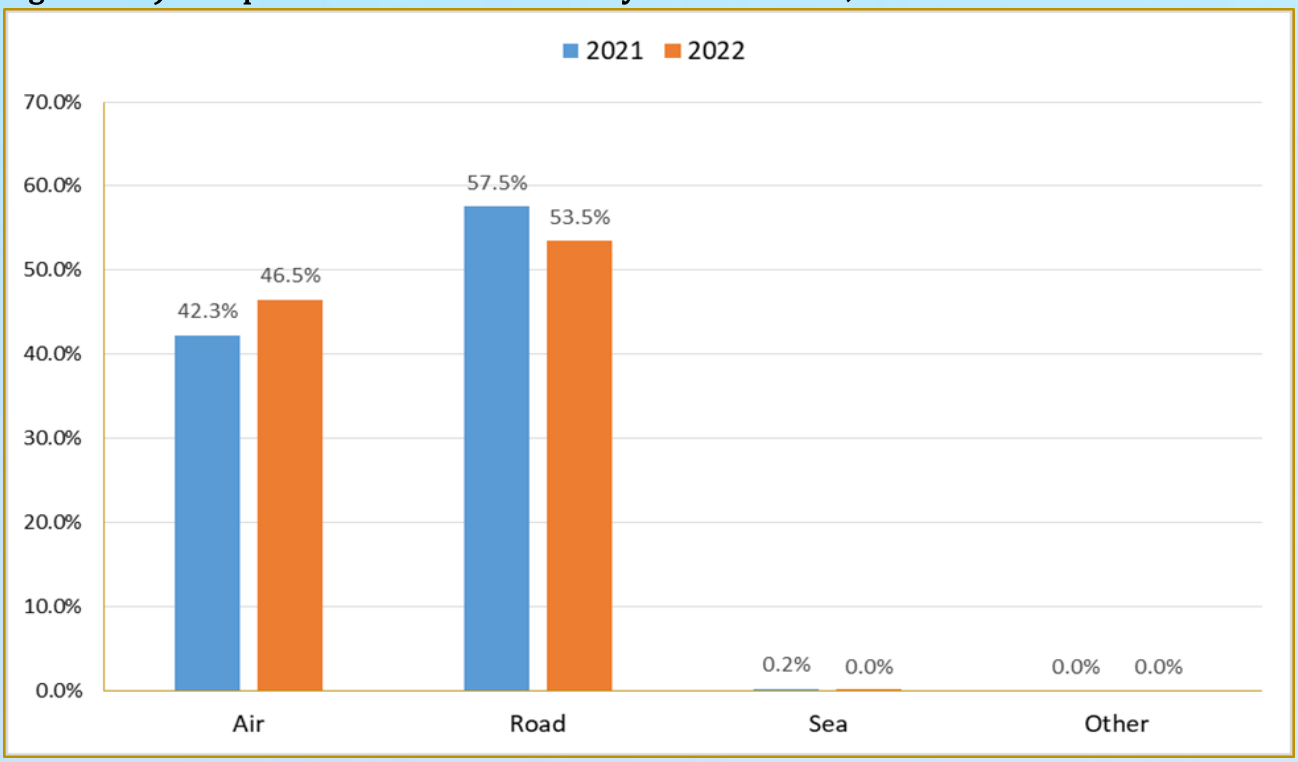

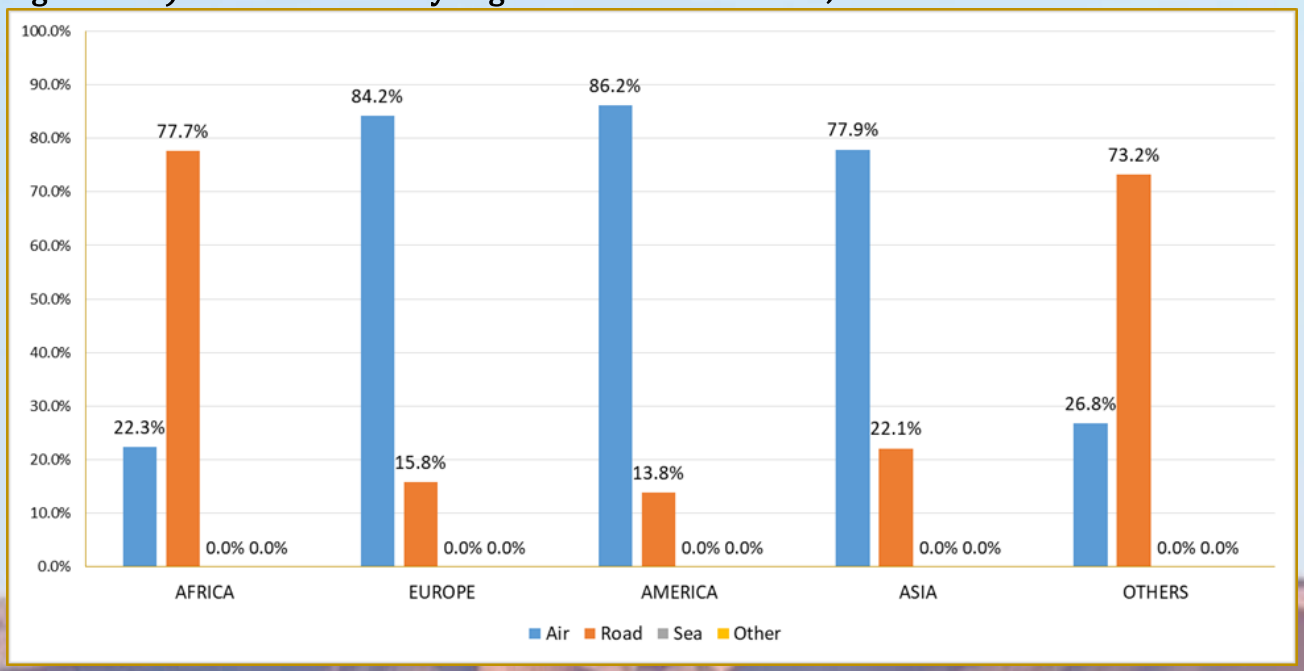

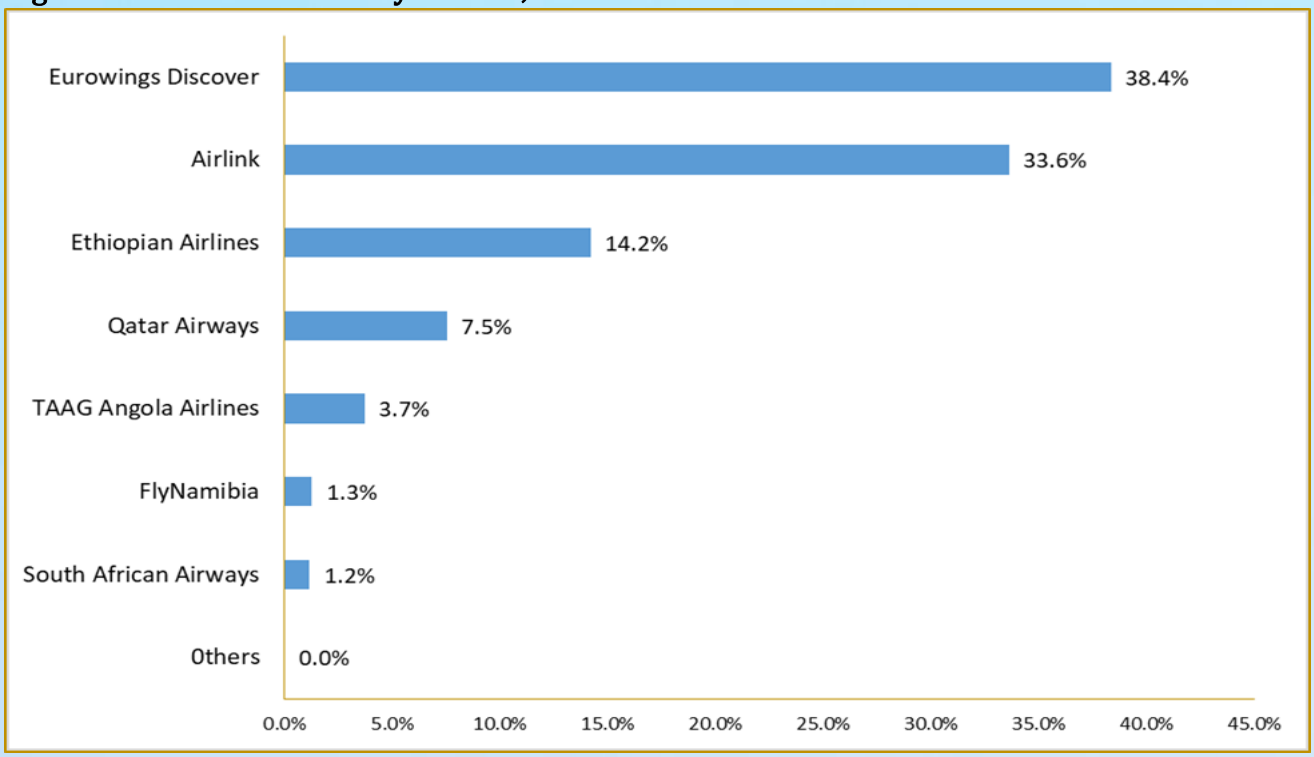

Figure 16 b): Tourist Arrivals by Regions and Mode of Travel, 2022

TRAVEL BY AIRLINE

Eurowings Discover and Airlink airlines emerged as the first and second largest air carriers of international air arrivals. Eurowings Discover accounting for the largest share of 38.4% and Airlink following closely behind with 33.6% of total air arrivals. Ethiopian airline also made a substantial contribution, bringing in 14.2% of total tourist arrivals by air. It's worth noting that Fly Namibia accounted for 1.3% of the total tourist arrivals in 2022. While this may represent a smaller share, every airline plays a part in facilitating travel to Namibia and providing increased flight seat availability.

Figure 17: Tourist Arrivals by Airlines, 2022

TOURISTS SEASONALITY OF TRAVEL

The season from September to December emerged as the new peak period for international tourists post Covid-19 with 53.1% of total arrivals. This is mainly due to holiday breaks or vacations in many source markets during that time, and possibly also some specific events and attractions were happening in Namibia during that period.

Alternatively, 10.8% of total international tourists arrived during January to April of 2022. Examining the monthly arrivals with specific market in mind, it is noted that a high number of tourists from the African market visited Namibia in September and December period, contributing 13.2% and 15.1% respectively to the total arrivals. On the other hand, a high number of European tourists arrived during August (22.3%) to October (20.0%) whilst the Asian markets were noticeable during September (22.6%) and October (17.4%) months.

Figure 18 a): Tourist Arrivals by Months, 2022

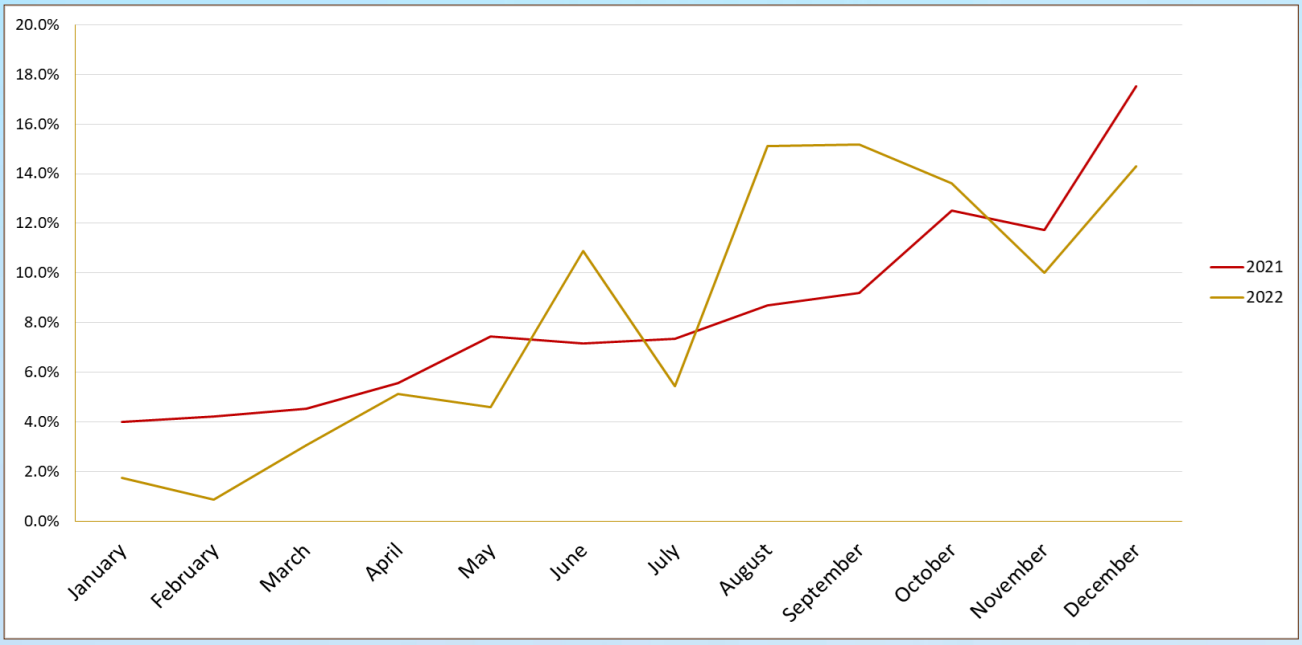

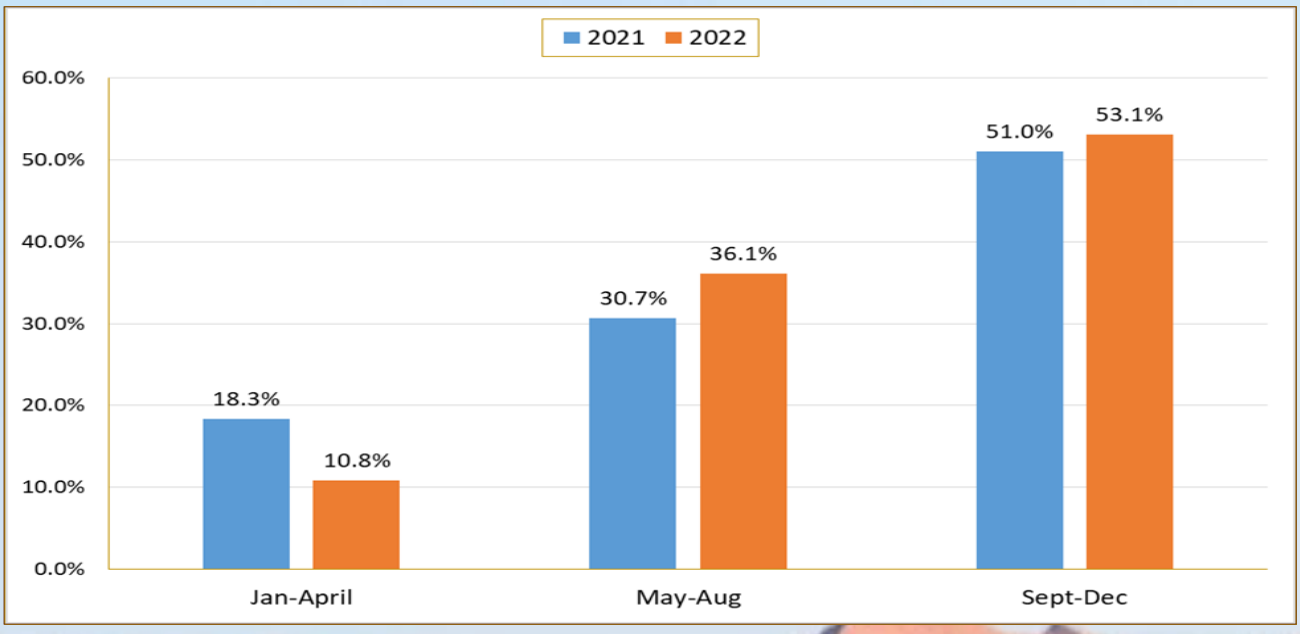

Figure 18 b): Tourist Arrivals by Seasonality, 2022

CONCLUSION

As the global travel and tourism industry continue to recover from the impacts of COVID-19 pandemic, the Namibian tourism sector is also experiencing gradual recovery in the tourism arrival numbers and the sectors' contribution to the GDP. A remarkable 98.1% increase in tourist arrivals in 2022, compared to 2021, showcases the resilience and appeal of Namibia as a holiday and business destination to many global travellers. The growth in this year can be attributed to the lifting of travel restrictions and the gradual relaxation of travel bans by many countries, ease access to the country, effort of various stakeholders' in promoting the Destination Namibia, the prominence of the country's Brand at global stage, etc. As more countries reopen their borders, travel becomes more easy and this creates opportunities for tourists to explore what Namibia has to offer.

The implementation of the country's Tourism Sector Recovery Plan by the Ministry with the support of the private sector and other O/M/As, aimed at mitigating the effects of COVID-19, is one of the many factors that contributed to the restoration of international travelers' confidence in the country and thus leading to an increase of tourist arrivals in the country in 2022.

The Ministry will continue to pursue the transformation of the statistics compilation process from the manual collection of data to a digitalized process. This will only be achieved with the support and collaboration of stakeholders, donor agencies, private sector, O/MA's, etc.

Finally, Namibia will continue to prioritize the safety of visitors to the country and implement best sustainable tourism practices in the tourism sector.
